

JUST FOR KITCHEN & HOME

Tacky Smack

Tacky Smack is the newest, easiest, cleanest and quite possibly cheapest way to totally update and personalize a room without the hassle (and hazmat) of painting. This fabulous vinyl wall-art is completely removable and adds an artistic flare to any surface without leaving a residue or requiring any sort of long-term commitment. A small company in the heart of Seattle, they support talented artists and the local economy, while bringing art to life. Put their removable wall art on any surface - rentals, dorms, lockers, apartments, home, the office or your fancy pants yacht! When you feel like changing, just peel it off and smack up another. Whether you call them wall tattoos, wall decals, vinyl surface art, window clings or window stickers, Tacky Smack is much nicer than posters, cooler than canvas, cheaper and easier than paint. Tons of designs on their Web site, but if you're in Seattle, you can get them at **RetroFit Home**, which is a cool local shop owned by an awesome woman, and keeping all the cool kids cozy in cush, artsy pads every month!

Felt Table Settings

Part puzzle, part multipurpose gadget, part chic dinner accessory, this playful and clever place setting kit looks more like a party game than a placemat – and can actually function as both! With the cutouts removed, the placemat is a cheery foundation to an inviting table.

The cutouts do double duty as trivets, wine charms, napkin rings and anything else your imagination can come up with. We're pretty sure it's only your food you're not supposed to play with at the table!

The Girls in the Vineyard

Here's something for you to put in that Hero Bags Wine Tote! The Girls in the Vineyard is a California Cabernet produced from sustainably farmed grapes grown in the lovely Amber Knolls Vineyard in the Red Hills of Lake County, just north of Napa, California. We love the example this small vineyard sets in conservation and in sharing their success. Not only do they sustainably "dry farm" their grapes; they give \$2.50 of every delicious bottle of wine sold to a charity of the purchaser's choice. A \$30.00 donation for every case! We'll happily lift our glass to that!

VerJus from Sonoma Living Green

VerJus is the unfermented juice of semi-ripe grapes that come from the thinning of wine grapes, a practice that dates back centuries and it has been a cooking staple of wine growing regions around the world. This VerJus is made from organically grown grapes in Sonoma County. Somewhere between wine and vinegar, VerJus has a wonderful delicate aromatic floral essence and a slightly tart flavor. Unlike vinegar, VerJus shares the same acid base as wine, creating a perfect complementary pairing. Add it to soups, sautés, salads and even drinks – the possibilities are endless. (Sonoma Living Green is one of those companies that we are so hopelessly in love with that it's hard to pick one thing to share with you.)

Hero Bags

We think all reusable bags are heroic. These bags could be called super heroes. Not only do they reduce trash in our landfills, they are sturdy and washable, and proudly made from organic American grown & sewn cotton. The whimsical, zippered **Pig Lunch Bag** is designed for the serious food lover, with plenty of room for your largest homemade sandwich, snacks and a tall beverage.

Kids' All Star lunch bags feature a custom nametag and do double duty for snacks and sippy cups, small toys, diapers etc. When your holiday hostess says "just bring a bottle of wine" surprise and delight her by delivering it in a unique, modern & reusable cotton **Wine Tote**. Cheers to you for helping to save the earth!

JUST FOR

JOCKS

Manduka eKO mat

Those of us who love yoga know that there is nothing like it for the release of stress, and the healthy alignment of body and spirit. Using a durable Manduka eKO yoga mat for your workout can actually increase that feeling of inner peace and contentment, knowing that you are also promoting the health of our planet. Made from non-Amazon harvested, natural tree rubber, the eKO mat provides the ultimate combination of cushion and grip using no PVC or toxic plasticizers. The perfect gift for the one on your list asking for asks for world peace for the holidays. Namaste.

Kigo Footwear

We are always on the move, and we know that you are too. So we're sure you agree with us that it is hard to move quickly from work to the bus in "office" heels, or from the soccer field to the grocery store in cleats. It's also a real pain to lug bulky street shoes around. That's why we've fallen in love with Kigo footwear. Made from eco-friendly materials (post-consumer uppers were once plastic milk jugs, adhesives and stitching are water based) Kigos are comfortable, stylish, super-lightweight and fold right in half to practically fit in your pocket! Wear them to work, to the gym, to the ski area, then pop them into your handbag or backpack to await your tired feet when you need to make tracks to your next destination. (And, if you're crazy, like Alyssa, and don't believe in wearing shoes to run and workout, these are perfect for you. Alyssa wears her Kigos to the gym because it's as close as she can get to barefoot, which they won't let her be at the gym.)

UScanteen

Did you know that only 17% of plastic water bottles in the US are recycled, and that 60 MILLION END IN LANDFILLS EVERY DAY, according to the Earth Policy Institute?? It's enough to make our mouths go dry. Luckily, the founders of UScanteen are tackling the problem head-on, with practicality and style. Named for the M-1910 canteens carried by American soldiers for over 50 years, UScanteens are light, sleek, environmentally-friendly thirst quenchers, with no plastic anywhere. Choose the retro-chic Como, or the sophisticated, leather-clad Bouchet – a UScanteen is an accessory that looks good on you, promotes good health inside of you, and does good around you: A percentage of company profits go to organizations like the **We Campaign** and the **Conservation Fund**. The "us" in uscanteen emphasizes a conviction that only by working together can we create a sustainable earth. Count us in!

Fair Trade Footballs and Fair Trade Basketballs

Fair Trade Sports is the first sporting goods company in the US to launch a full line of eco-certified Fair Trade sports balls, ensuring fair wages and healthy working conditions for their adult workers. These balls are made in Pakistan and are official size and weight, with all-weather, high-grip surface for year-round outdoor play. All profits after taxes are donated to children's charities. They even take suggestions for worthy non-profits, so let them know of your

NEED MORE GREAT GIFTS?

The JUST CAUSE store at WorldOfGood.com has more than 28,000 gifts that put smiles on faces while making the world a better place. For every purchase through December 2009, they will give JUST CAUSE \$5 - and that will help us keep going AND donate to some of our favorite charities! Help us do good and spread good news! THANKS!
